## ROB MARSHALL

### SALES AND STRATEGY

Rob has over 20 years experience in property and construction, having performed various senior leadership roles within the engineering and planning consulting, construction and property sectors. Rob therefore has a unique set of skills and experience that help support the growth and development of the Novasteel team.

With his varied background Rob has gained significant experience in strategic and business planning and implementation, business development planning and implementation, project direction, marketing strategy development and sales.

Able to assess projects from many varied perspectives, Robs involvement in the team provides the project and the client with information and assessments critical to successful outcomes.
